

Administrative Officer, OTR

3 December 1957

Chief, Intelligence School

OTR Regulation No. 25-4

1. A summary of Intelligence School comments on the draft regulation covering the Training Evaluation Program is attached.

2. The Program statement is very broad. Thus the Training Evaluation Program (2.a.(1)) does not determine training objectives for the Schools; it calls for clarification and a specific description of objectives. Likewise, the Program is one phase of the training activity; it does not (2.b.) encompass every phase of the training program.

3. The draft section on responsibilities of A & E Staff and School Chiefs seems somewhat out of balance. The statement (2.c.) that the School Chiefs and Chief Instructors are to administer the program should go under the section dealing with "Responsibilities." Suggestions for evening up the detail in which the respective assignments are spelled out are contained in the margin of the attached copy.

4. In general, the changes we suggest are intended to reflect the respective responsibilities: of the instructors, for conducting training; of the A & E Staff, for advising them and DTR on certain phases of that training.
